     <h2 style="color:cornflowerblue;">Objective:</h2>
     <p1>As a Computer Science Engineering student looking for an opportunity of internship from May 2023 to get insights in learning about real time problems where I can apply my skills from my education. Which enables me to take the learning experience from internship and apply these in my studies and project work</p1>
     <h2 style="color:cornflowerblue;">Education</h2>
     <p2>Pursuing B.Tech. Computer Science Engineering (CSE) in Shiv Nadar University, Chennai. Expecting second year completion in May 2023. </p2>
     <h2 style="color:cornflowerblue;">Technical Skills</h2>
     <p2>Programming Languages: C, Java and Python
        Microsoft Office (Word, Excel, PowerPoint)
     </p2>
     <h2 style="color:cornflowerblue;">Course Work</h2>
     <p2>
        IV Semester
Computer Networks, Design and Analysis of Algorithms
        Operating Systems, Agile Scrum Process
Foundations of Data Science                Introduction to Sensor Technology
III Semester
Data Structures, Database Management Systems
     Object Oriented Programming
        Software Engineering and Design
     Discrete Mathematics and Graph Theory
II Semester
Python                                Introduction to Internet of things

Objective:

As a Computer Science Engineering student looking for an opportunity of internship from May 2023 to get insights in learning about real time problems where I can apply my skills from my education. Which enables me to take the learning experience from internship and apply these in my studies and project work

Education

Pursuing B.Tech. Computer Science Engineering (CSE) in Shiv Nadar University, Chennai. Expecting second year completion in May 2023.

Technical Skills

Programming Languages: C, Java and Python Microsoft Office (Word, Excel, PowerPoint)

Course Work

IV Semester Computer Networks, Design and Analysis of Algorithms Operating Systems, Agile Scrum Process Foundations of Data Science Introduction to Sensor Technology III Semester Data Structures, Database Management Systems Object Oriented Programming Software Engineering and Design Discrete Mathematics and Graph Theory II Semester Python Introduction to Internet of things I Semester C Programming

Field of Interest

Cloud Computing Interest of Things (IOT)

Soft Skills

A team player, self-motivated, adaptability and flexibility in the working environment Excellent communication and inter personal skills Profound commitment and determination towards work and professional goals Good analytical power and comprehensive problem solving abilities

Academic Profile

Class	Year of completion	Percentage
tenth	2019	CGPA 10/10
Intermediate	2021	97.9%
